## WATER QUESTION GROWING ACUTE

Oakland After Us Hard and San Francisco Looking for More Water  
Senator Strowbridge and Assemblyman Beck Fighting Manfully for Our District.

A few of the important developments in the water supply question this week are:

1. President Bourne of the Spring Valley Water Company admits that a water famine threatens San Francisco and that to increase its supply the Spring Valley must draw more heavily upon the Pleasanton gravel beds and must also build the Calveras dam. Incidentally he admits that there is danger of an injunction from the people of Washington Township. But the most significant admission is that the Calveras dam site and water shed may be sold to the People's Water Co., if San Francisco is not willing to pay Spring Valley its price.

2. The second important development is the open and aggressive stand that Mayor Mott and the Oakland delegation are taking against the interests of Washington Township. Accompanied by J. H. Dockweiler, Mayor Mott has been in Sacramento this week trying to defeat the Strowbridge amendment to the present municipal water

bill is also in the hands of the Governor. As the legislature has adjourned the Governor has thirty days from the time of their passage in which to sign them if he approves them. It is believed the governor will sign both laws. Neither bill will become operative as a law until ninety days after the Governor signs it.

As soon as the bills are signed by the Governor the Water Committee will proceed with their plans. Too much praise can not be given to our representatives in the legislature for the splendid fight they have put up for the people of their district. Both Senator Strowbridge and Assemblyman Beck fought with great skill and courage and showed themselves to be absolutely independent of any conflicting interest political or otherwise. They both deserve the staunchest support of our people for they have proved themselves true as well as capable.

**Hard Fight in Assembly.**  
The hardest fight came in the assembly. Mayor Mott, Engineer Dockweiler and the majority of the Alameda county delegation worked hard against the Strowbridge bill. They did not realize the danger to them until after the bill had passed the Senate and was reported out of the Committee in the Assembly. They tried hard to amend it to death but Strowbridge and Beck had been working quietly for weeks and had the situation so well in hand that

has met with our representatives who seem to be actuated by but one purpose as legislators and that is to do their duty conscientiously.

Telegrams of congratulation were sent to both Beck and Strowbridge by the Water Committee this week.

**Both Bills Favorable.**  
Both the Caminetti bill and the Strowbridge amendment are directly favorable to our section because they give us the same opportunity and protection that other sections are given. The Strowbridge amendment will not be available if the Oakland people proceed at once to organize their water district before the ninety day limit has expired.

Now that the bills have passed, and the danger from both San Francisco and Oakland's needs is greater than ever, the collectors in the Niles, Centerville and Irvington districts should get busy. The committee will need every dollar that can be raised to carry through the plans for this year.

The success that has attended our efforts in the legislature shows what can be done by organization. The whole face of the water question is changing. The day of the rule of the big corporations in our legislature and in our courts is passed. There is a good chance that this section of ours may yet have restored to it the water supply which nature ordained for it. It will only come by fighting for it.

## ELECT NEW OFFICERS

### ASSOCIATED CHAMBERS INDORSE STAND OF STROWBRIDGE AND BECK ON WATER QUESTION.

The regular annual election of officers of the Associated Chambers of Commerce of Washington Township occurred last Wednesday evening at Decoto. Henry May of Decoto was re-elected President; Henry Lachman of Mission San Jose was re-elected Vice-President; F. T. Hawes of Centerville was re-elected Treasurer, and J. E. Wamsley of Irvington was elected Secretary, succeeding Chris Runckel, who has been the Secretary for the past year and a half.

The Alvarado Chamber of Commerce was accepted as a member of the Associated Chambers by a unanimous vote.

The question of paying the salary of the Secretary which had been fixed at \$4 a month a year ago was decided by Mr. Runckel's canceling the claim as the funds of the Associated body did not warrant such a salary.

On motion it was voted that all officers hereafter serve without pay. Delegate Farley of the Alvarado Chamber brought up the question of admitting boys to the local Chambers. It was decided that while at present no change would be made in the age limit that the local bodies be advised to encourage the attendance of boys at their meetings. The question will probably be brought up again in the future.

A committee consisting of Messrs. Farley, Rood, Hansen, Lachman, Grimmer and May was appointed to visit the Newark Chamber and urge their joining the union.

J. C. Shinn of the Township Water Committee asked the chambers to take action on the Strowbridge water district law. Mr. Runckel explained the purpose of the amend-

ment and the necessity for promptly strengthening the hands of Assemblyman Beck and Senator Strowbridge.

On motion of L. W. Rood the Associated Chambers instructed the Secretary to wire messages to Senator Strowbridge and Assemblyman Beck indorsing their stand on the water question.

The Secretary was also instructed to wire them favoring the measure that will make Spring Valley Water Company property assessable in Alameda County if San Francisco acquires it.

Messrs. Lachman, Farley and May were appointed a committee to take up the matter of the poor road between Decoto and Hayward with the Board of Supervisors.

### DINNER POSTPONED.

## PERSONALITIES

WE have often been reminded by people whose friendship we appreciate and whose advice we value that we are inclined to be too personal in our criticisms. Others say we are too bitter, and still others say that we are too radical.

The only thing that we can say in extenuation of our policy is that a severe and aggravated case of boss-ridden and machine-ridden politics requires severe treatment. We frankly confess as we have often confessed before that personally we have no feeling toward the men we have criticized. They are nearly all genial and well disposed toward those who co-operate with them. While they have looked out well for themselves they have been liberal and loyal to their friends.

It is no easy matter to set yourself in opposition to men of power and wealth especially when you yourself are a wage earner and commencing at the bottom of the ladder in a business which it is in their power to materially affect. Then why have we done so? Why have we invited the opposition and struggle of the past five years? Why have we been so personal?

In the first place when we began the fight California was still under the rule of Herrin and the bosses of our section. Harris and Donahue were the willing tools of Herrin. It was up to us to make our choice between the old order of bossism and political servitude which they typified or the cause of The New Freedom which President Wilson has recently so well presented to the American people. Washington Township gave its vote to Governor Johnson although the men whose political hands he has temporarily strengthened were opposed to the very principles he espoused. But the Press along with those who felt a disappointment over Johnson's recognition of the old political machine has been willing to sink its personal disappointment in the general good that has come to the State through the present State administration. The Press stands today exactly where it stood when all this was yet to be accomplished. In the battle of the future it will stand for the cause of liberty and democracy against political slavery and bossism.

Now, why have we been so personal?

Because it is only by centering attention on men who typify and represent the old order of bossism and political servitude that we can hope to destroy their power to prostitute our government to their own selfish ends. Through the Lincoln-Roosevelt League movement they were at least compelled to change their political spots. Through the reforms of our political system they will be obliged to change their methods. Through opposition all along the line they are compelled to yield here and there and as they yield the people learn to recognize their own power.

Why was Weller driven off the bench in San Francisco? Why was Herrin driven out of power in the State? Why were Aldrich and Cannon forced out of Congress? Wellerism, Herrinism and Aldrichism all typify the fight not against men personally but against the system for which they stand and by which they profit.

And so it is with Mike Kellyism or Billy Donahueism.

And in this fight, we must if needs be, lose the saloon-license advertising all the county patronage, school district advertising, legal advertising (this is the last phase of boycott), which these individuals by reason of their political power can control and DO USE AGAINST US.

They have determined to make of us an awful example of what opposition to their power in Alameda County means. We are determined that we shall not crook the knee to any boss. We are willing to work WITH any man in a worthy cause. It is because such men as Harris, and Donahue and Kelly uphold the old system that we are opposed to them. Our ideals of American citizenship will not permit us to recognize any man or set of men as our rulers.

## RESTORING THE OLD MISSION

GRADUALLY the value of the old Mission San Jose as an attractive point of interest in Alameda County is beginning to dawn on the minds of many Oaklanders. While the building itself in its present condition is a disappointment to those who travel from afar to see it, when restored and reinvested with the architecture and relics of the old Mission days, the traditions and spirit of that time will to a great extent become revived. Mission San Jose will then regain what has been lost sight of in the past forty years of commercialism.

The growth of Oakland and its needs in the way of scenic and other attractions and with the present use of the automobiles over our splendid roads are rapidly bringing recognition to our section with its charms that no other part of the county affords.

There is but one Niles Canyon and there is but one Mission Peak with its surpassing wealth of view both in its ascent and from its summit.

While it is not necessary for our county to capitalize and exaggerate these attractions as Southern California has done, it is only the part of wisdom that we should enjoy them to the full and bring them to the notice of strangers.

Another thing we should not lose sight of. It is almost always the case that when a stranger is brought out to see the old Mission he recognizes the wonderful resources of our section and becomes an enthusiastic booster for our section.

We firmly believe that a new era is being ushered in for our section, made possible by better means of transportation and the needs of the growing population about the day.

Grandfather shipped 200 barrels of claret wine to Europe. The wine goes to London, Bremen and Rotterdam and is shipped via Oakland. Three carloads have also been shipped recently to various home markets. Most of the wine raised in this section is of the red variety, the soil of our hills being very similar to the soil in the neighborhood of the famous Bordeaux section from which Graub and Werner have imported much of their stock.

### Decoto

The meeting held last Friday evening in which quite a number of towns people participated and in which the relations of the Essex Lumber Co. to the community were discussed has been evidently cleared the local atmosphere. As soon as the fruit season is over if sufficient help is available for the regular work of the factory, it is believed that the company will erect a new mill. The mill will undoubtedly remain in Decoto.

Miss Dorothy Fitzmaurice of San Francisco has taken a place with the Essex Lumber Company as bookkeeper and stenographer. She is commuting at present from Niles.  
Mrs. D. Jackson left Wednesday for a few days stay in Sacramento.  
Mrs. F. W. Meyer is in San Francisco on a visit to her sister Mrs. R. Volmar.

Mrs. H. Searles and Miss Kate Graesslin and Mrs. F. Trask enjoyed an automobile trip to San Jose this week.

Ted Whipple leaves today for Auburn, Placer County, where he will take a position with the Pacific Gas & Electric Co. He will make the trip on his motor bike.

The young people of the Decoto Catholic Church are raffling off a five dollar piece, which represents the amount of their net receipts from the entertainment recently given in Niles.

Justice of the Peace T. S. Ferreira is quite sick at his home in Oakland. His son, Cyrus, has charge of the library during his absence.

Baseball is not the popular topic in Decoto that it was last week.

Robt. Tyson, deputy probation officer visited the Decoto school Thursday morning and addressed the pupils of the different grades.

### MRS. CHARLOTTE HAINES

On Thursday, April 10, as the day was closing, Mrs. Charlotte Haines answered her husband's call and quietly passed away at her Decoto home.

Her life of sixty years had been a full one. She had been one of twain who had for one of our most priceless institutions—an ideal home.

Forty-five years ago, a native of Ohio, Miss Charlotte Haines became the bride of I. B. Haines and came to Decoto, where together they worked and were blessed with a family of children, five in all. All these have grown and are doing a splendid part in making this earth a better and happier place for the rest of the human family.

Mrs. Haines was not only interested in the welfare and education of her own family but gave generously of her time and energy to conditions everywhere should be improved, and to that end she was an active member of Alvarado Lodge, and the Alvarado Church Circle, and the Washington Township Country Club. And her splendid influence shall live, for among her family, her associates and co-workers, her gentleness and firmness inhering to that which was right in principle and doing the right action, is a trait which will be as a splendid example.

Her religion was broad and firm—God's love and a Savior's redemption—to no especial sect, but which took in the whole of the human family—that was the secret of her beautiful life just closed in earthly activities, but which lives forever in the hearts and memories of her dear ones and her friends and neighbors.

The last rites were under the auspices of the Alvarado Rebekah Lodge with a beautiful service at the home led by Rev. King of Decoto. The remains were laid to rest in the Decoto Cemetery beside those of her husband, who had passed on several years ago. Here the Rebekah Lodge, beautiful in its simplicity and sentiment, was used. Rev. King read an appropriate poem "Mother's tribute sent by a member of the family not present."

And thus surrounded by her family and a large assembly of friends amid the beautiful flowers, her body was laid away. And the mourners went home, lonely for their loved one, but comforted by a feeling that "God's will is best."

### CARD OF THANKS

We wish to express our appreciation of the many kind messages of good cheer and sympathy during her recent illness for all that was done and lessened the sorrow for us, and for the flowers, silent tokens of esteem for our loved one.

May L. Haines,  
E. L. Haines,

Harry Haines,

### NILES WOMAN'S CLUB

At the regular meeting of the Niles Woman's Club, held at the home of Mrs. J. B. Beck, Mrs. Chas. Shinn gave a most interesting and instructive talk on "National Parks". She presented subject as only one who lives in the Forest and loves it, could do. The next meeting will be in two weeks, May 22nd, at the home of Mrs. W. E. Gibson.

yard dash, the 220 yard dash, besides running a fast lap in the relay race. The first two events were comparatively easy for him and in the 440 he ran away from Mitchell in the second lap and won by twenty yards. Ellsworth ran a game race in this event and beat out Jones for third place.

Hafner had little competition in either hurdle event and broke the record in each of them besides taking second place in the 220 and running a good lap in the relay.

Both the mile and half mile were very good races. In the half Buchardi set the pace for the first three laps but Lee was right at his heels and won out in the last lap. Buchardi ran a remarkable race as he was in poor condition, having been unable to train the early part of the season.

In the mile Nichol set the pace for the first five laps when Browning took the lead. Tyson who was in fourth place till this time pulled up to within a few feet of Browning and then these two runners drew away from Buchardi and Nichol. Tyson tried hard to overtake Browning but the latter won out at the finish by about five yards. Nichol finished in third place and Buchardi. Browning had fouled in the first lap of the race and was disqualified. This gave Cen-
